

MUHAMMAD AZAM

MERN Stack Developer | Full-Stack Web Developer
Kasur, Punjab, Pakistan | +92-325-6830508 | azamghafoorreal@gmail.com
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineering graduate specializing in MERN stack development with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Proven ability to design REST APIs, integrate databases, and develop responsive user interfaces. Completed freeCodeCamp Back-End Development & APIs certification (2025) and delivered multiple full-stack projects including a Job Application Tracker (final-year project). Seeking a Junior MERN Stack Developer or Full-Stack Developer role to deliver scalable web solutions.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, jQuery, Responsive Design, UI/UX Implementation

Backend: Node.js, Express.js, REST API Development, JWT Authentication, Middleware (Multer), Microservices

Databases: MongoDB, Mongoose, MySQL, SQL

Languages: JavaScript, C++, Python, PHP, SQL

Tools & Platforms: Git, GitHub, Visual Studio Code, Postman, npm, VirtualBox, WordPress

Concepts: MVC Architecture, REST APIs, CRUD Operations, Data Structures, OOP, Agile, Version Control

Soft Skills: Problem Solving, Team Collaboration, Quick Learning, Time Management, Adaptability

PROJECTS

Job Application Tracker — Final Year Project (MERN Stack) 2026

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, REST APIs

- Developed a full-stack web application enabling users to track job applications with status updates, reminders, and document management.
- Implemented secure user authentication using JWT and bcrypt, with role-based access control.
- Designed and built RESTful APIs in Express.js, integrated with MongoDB using Mongoose for CRUD operations.
- Created an analytics dashboard with data visualization to display application progress and success metrics.
- **Links:** [GitHub](#) | [Live Demo](#)

Exercise Tracker — MERN Stack Application 2025

Technologies: React.js, Node.js, Express.js, MongoDB

- Built a full-stack exercise tracking application allowing users to log workouts, manage profiles, and view exercise history.
- Designed REST API endpoints for user management, workout creation, and data retrieval with MongoDB integration.
- Implemented input validation and error handling on both client and server sides.
- **Links:** [GitHub](#) | [Live Demo](#)

Job Application Form — MERN Stack Web App 2026

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

- Developed a responsive single-page web application for user data submission with MongoDB persistence.
- Implemented client-side form validation and backend data sanitization to ensure data integrity.
- **Links:** [GitHub](#) | [Live Demo](#)

File Metadata Microservice — Node.js & Express.js 2025

Technologies: Node.js, Express.js, Multer middleware

- Built a file upload microservice that extracts and returns file metadata (name, type, size) via REST API.
- Implemented Multer middleware for multipart form-data handling and structured JSON responses.
- **Links:** [GitHub](#) | [Live Demo](#)

URL Shortener Microservice — Node.js & Express.js 2025

Technologies: Node.js, Express.js

- Developed a URL shortening service converting long URLs into manageable short links with redirection.

- Implemented URL validation, in-memory storage, and clean REST endpoints.
- **Links:** [GitHub](#) | [Live Demo](#)

Request Header Parser Microservice — Node.js & Express.js

2025

Technologies: Node.js, Express.js

- Created a backend API that returns client IP address, preferred language, and user-agent software details.
- Parsed HTTP request headers and returned structured JSON responses.
- **Links:** [GitHub](#) | [Live Demo](#)

Timestamp Microservice — Node.js & Express.js

2025

Technologies: Node.js, Express.js

- Developed a REST API for converting Unix timestamps and human-readable dates with UTC response handling.
- Implemented date validation and edge-case handling.
- **Links:** [GitHub](#) | [Live Demo](#)

Front-End Web Projects — Responsive UI Development

2023 – 2024

Watch X, J. Clothing, BAROQUE, Chat Box, Education Website, GCU Home Page

- Designed and built multiple responsive websites using HTML5, CSS3, Bootstrap, JavaScript, and jQuery.
- Applied modern layout techniques (Flexbox, Grid) for cross-browser, mobile-first compatibility.
- **Live Demos:** [Watch X](#) | [J. Clothing](#) | [BAROQUE](#) | [Chat Box](#) | [Education Site](#) | [GCU Home Page](#)

CERTIFICATIONS

- Back-End Development and APIs — freeCodeCamp (October 2025) — [View Certificate](#)
- Full Stack Web Development — IDEO College of Technology (May 2024)
- CCNAv7: Introduction to Networks — Cisco Networking Academy (June 2024)
- WordPress Development — DigiSkills.pk (November 2023 – February 2024)
- Digital Literacy — DigiSkills.pk (October 2020 – January 2021)

EDUCATION

BS Software Engineering — Virtual University of Pakistan

2021 – 2026

Relevant Coursework: Data Structures, Object-Oriented Programming, Database Management Systems, Software Engineering, Operating Systems, Computer Networks, Web Engineering, Software Architecture & Design, Human-Computer Interaction, Software Quality Engineering

FSc Pre-Engineering — Govt. Islamia Degree College, Kasur (BISE Lahore) 2019 – 2021
